OUR BRANDS

DIESEL GENERATORS

With 20+ years of industry experience, General Power launched the Genpowerusa line of Diesel Generators from 20 to 500kW. Our philosophy of work will continue: extensive stock, short lead times, and ability to customize in order to meet your needs. Our centralized location in Miami, FL permits us to effectively serve users across the U.S.

Founded in 1966, SDMO Industries with its Kohler-SDMO line is the leading supplier of diesel generators for the international market. The company designs, manufactures and installs generating sets from 1 to 3300 kVA. All generating sets are manufactured exclusively in their state of the art facilities in France.

CONTROLS

Deep Sea Electronics is one of the world's top manufacturers of generator controllers and auto transfer switch controllers. DSE is based in the United Kingdom and has nearly 45 years of experience. The company develops and manufactures a range of over 140 different products that provide flexible control solutions for multiple applications. General Power carries over 100 Deep Sea models in stock.

AC ALTERNATORS & PARTS

Established in 1904, Cummins Generator Technologies manufactures alternators under the renowned STAMFORD and AvK brands setting the industry standard, with a range from 7.5 to 11,200kVA, suitable for all genset configurations. General Power, the official distributor for North and South America, proudly provides the full line of Stamford AvK alternators and parts.

Leroy-Somer Electric Power Generation, a France based company, is the global leader in industrial alternators with power ranging from 10kW to 25MW. As the official Leroy-Somer distributor for the Americas, General Power carries the largest and most comprehensive alternator and parts stock

TRANSFER SWITCHES

Founded in 1888, ASCO designs, manufactures, and supports innovative power protective devices and systems that integrate hardware and software productivity. All their products are built with today's demanding worldwide standards in mind and the goal of delivering unparalleled service every time. General Power carries the largest selection of ASCO transfer switches in stock from 100 amp to 2000 amp.

OUR STOCK

GENERAL POWER offers you one of the largest inventories in North America of industrial generator sets to meet even the most urgent needs. Additionally, our company carries the single **largest stock of Automatic Voltage Regulators and Automatic Transfer Switches in the United States** with **1000+ units** of all major brands ready to ship **SAME DAY** to any country in the world.

We understand your urgency and we understand **“same day”**. Our friendly staff will assist you same day, we will quote same day and we will ship **SAME DAY**.

100+ Automatic Transfer Switches from **100 to 2000 AMPS**

In stock

100+ Diesel generators from **10 to 600 KW**

In stock

200+ Diesel engines from **39 to 755 HP**

In stock

200+ AC alternators from **10 to 1000 KW**

In stock

1000+ Alternator parts, generator parts, automatic voltage regulators and generator controls

In stock

GENPOWERUSA Industrial Generators

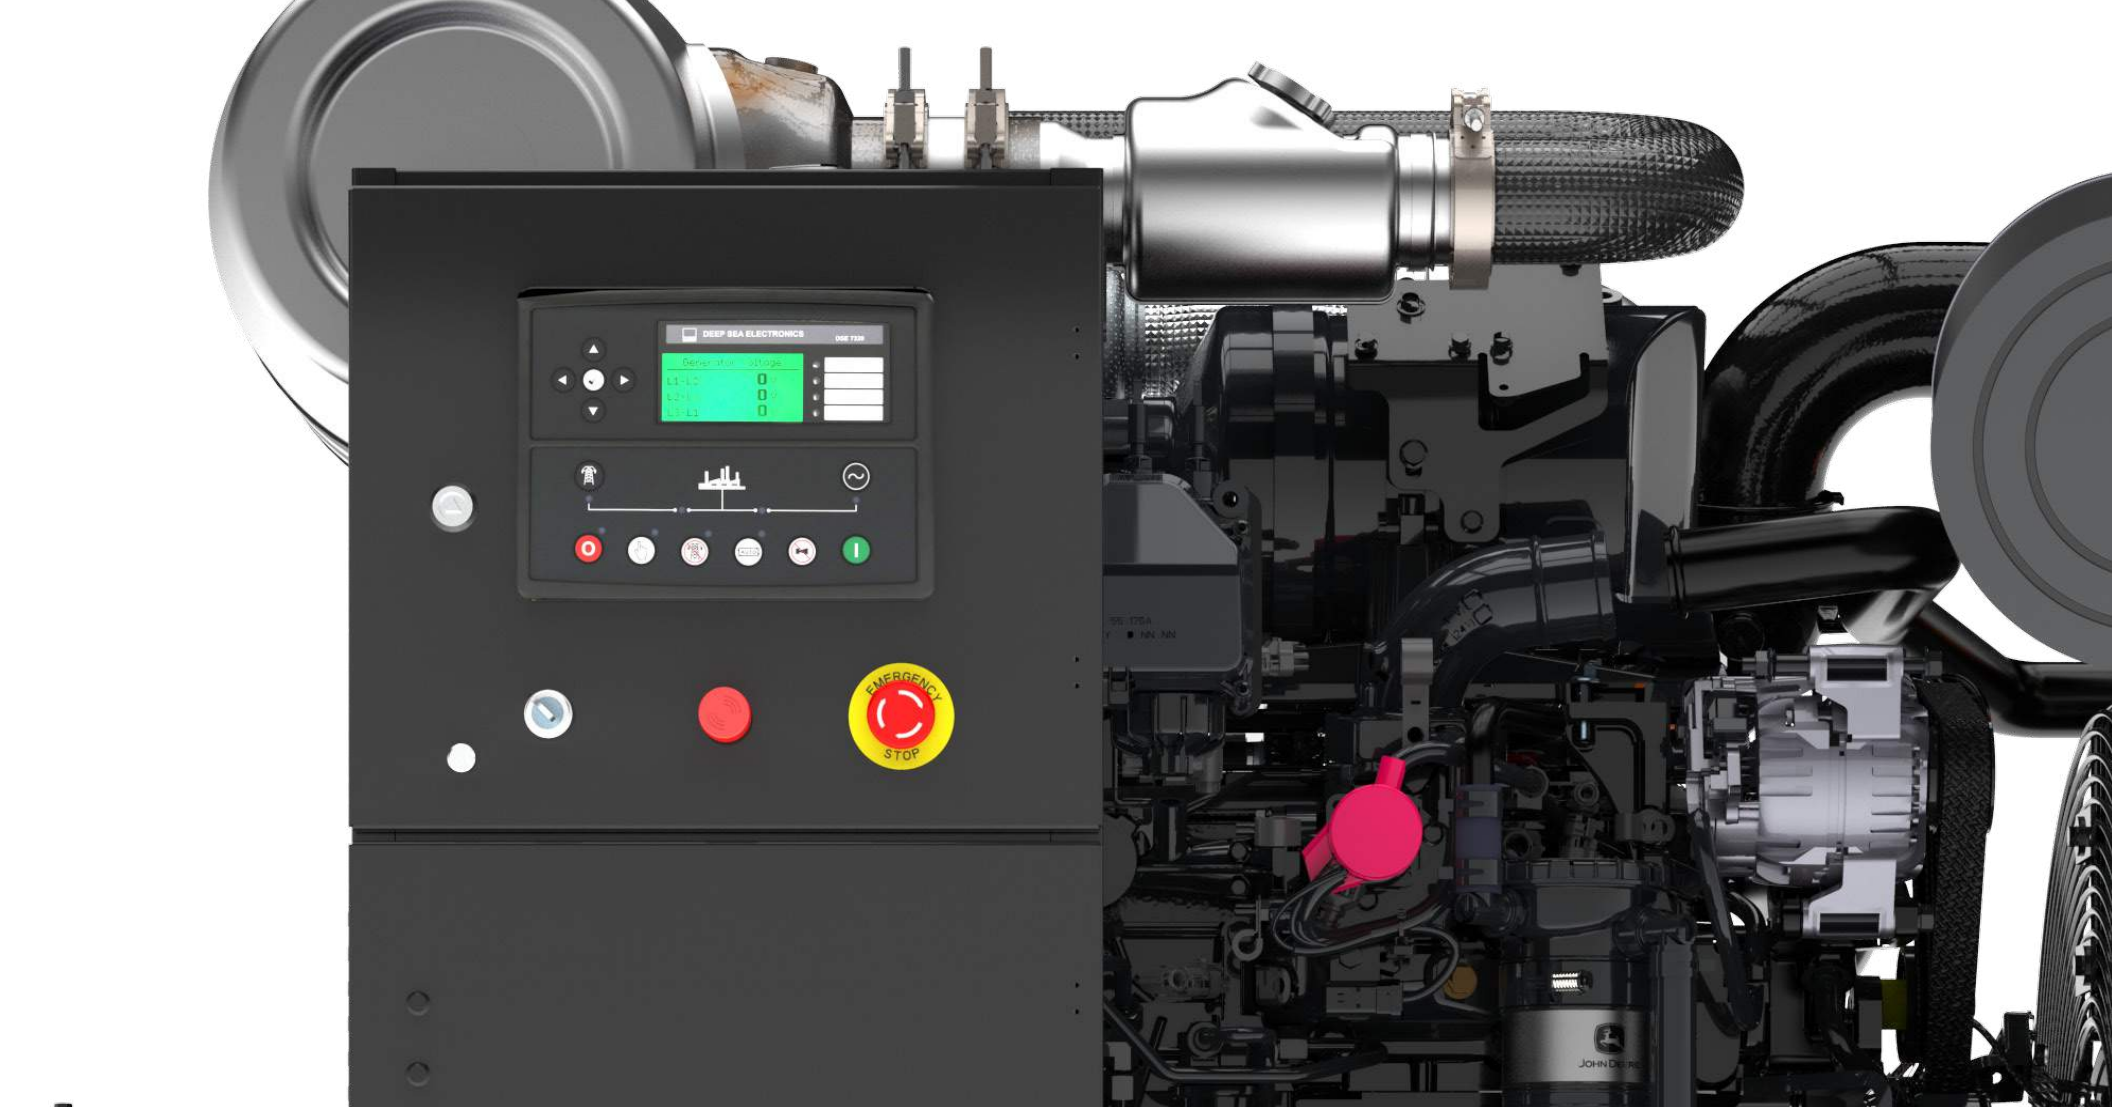

GENERAL POWERTM
THE GENERATOR COMPANY

Our line of GENPOWERUSA generators is 100% designed, engineered, assembled and tested in the U.S. at our Miami, Florida plant.

- ◆ Powered by heavy duty John Deere, Kohler, and Perkins diesel engines
- ◆ Leroy Somer and Stamford alternators
- ◆ Deep Sea digital controllers
- ◆ COWL 35db critical aluminized silencers
- ◆ Single-walled and double-walled UL142 listed fuel tanks; steel and aluminum construction.
- ◆ Weather-proof silent enclosures, steel or marine-grade aluminum construction.
- ◆ Skid mounted and trailer mounted available.
- ◆ Stand-alone and paralleling configurations available.
- ◆ EPA Tier 2, 3/Flex, i4/Flex, and Tier 4 Final engines

Premium Components

- John Deere, Perkins, and Kohler diesel engines: TPEM Tier 3/i4 FLEX and Tier 4 Final
- Leroy Somer and Stamford Alternators
- Deep Sea Controllers: 7000 and 8000 series
- Miratech Cowl Silencers: Aluminized, critical grade silencers for up to 35 dba sound reduction
- Genpowerusa Enclosures: 12-gauge steel or 12-gauge marine-grade aluminum super silent enclosures for lifetime longevity

Custom Engineering

- 20+ years experience delivering exceptional solutions to customers across 100+ industries.
- Our dedicated experts are available to design generators to customer specifications.
- We are able to provide mechanical and electronic engineering as well as in-house 3D CAD design.
- All customized designs can be prototyped and witness-tested.

Comprehensive Range

- **EPA Tier 2/3/i4:**
John Deere 30 to 500 kW
Perkins 20 to 500 kW
Kohler 18 to 60 kW
- **EPA Tier 3/i4 FLEX:**
John Deere 50 to 100 kW
- **EPA Tier 4 FINAL:**
John Deere 30 to 400 kW
Perkins 50 to 500 kW

GENPOWERUSA Rental-grade Generators

GENERAL POWERTM
THE GENERATOR COMPANY

Our line of GENPOWERUSA rental-grade generators is 100% designed, engineered, assembled and tested in the U.S. at our Miami, Florida plant.

- ◆ Powered by heavy duty John Deere and Perkins diesel engines
- ◆ Leroy Somer and Stamford alternators
- ◆ Deep Sea digital controllers
- ◆ ABB breakers
- ◆ COWL 35db critical aluminized silencers
- ◆ True double-walled fuel tank with 110% containment
- ◆ GENPOWERUSA marine-grade aluminum super silent enclosures
- ◆ Heavy duty trailers, lifting/mobility kits, and field dragging kits available.
- ◆ Stand-alone and paralleling configurations available.
- ◆ EPA Tier 3 Flex, i4 Flex and Tier 4 final engines.

Premium Components

- John Deere and Perkins diesel engines: TPEM Tier 3, Tier i4 FLEX, and Tier 4 Final
- Leroy Somer and Stamford Alternators
- Deep Sea Controllers: 7000 and 8000 series
- Miratech Cowl Silencers: Aluminized, critical grade silencers for up to 35 dba sound reduction
- Genpowerusa marine-grade aluminum super silent enclosures for lifetime longevity

Features

- Complete rental-type distribution and quick field-connections panel designed for heavy use and strategically placed for safety and easy access.
- Conveniently accessible 500 MCM mechanical lugs
- Performance kit composed of automatic battery charger, automatic coolant heater, Racor water/fuel separator and Shore power connectors
- Up to 2" acoustic insulation with hydrocarbon sealing film

Features

- XXL maintenance access featuring beam-less design for industry-leading 110% unrestricted point of entry.
- Dual critical-access emergency stop buttons located on the engine access compartment and on the control cabinet.

Kohler-SDMO Export Generators

Our line of Kohler-SDMO generators from 8 kW to 3,250 kW are 100% designed, engineered, assembled and tested in state-of-the-art facilities in France. These diesel generators are specifically configured for the international market with highly price competitive non-EPA export engines and are readily available to ship worldwide from our stocking warehouses in Miami, Florida, France, Mexico, Colombia, and the UAE.

- ◆ Powered by heavy duty John Deere, Kohler, Volvo-Penta and Doosan diesel engines
- ◆ Leroy Somer and Mecc Alte alternators
- ◆ SDMO digital controllers
- ◆ Schneider breakers
- ◆ Residential-grade silencers
- ◆ Single-walled fuel tank; steel construction
- ◆ Skid and Trailer mounted options
- ◆ Stand-alone and paralleling configurations available.
- ◆ 500+ units in stock in 50Hz and 60Hz and record lead times of 2-4 weeks for most orders regardless of size.

Premium Components

- John Deere, Kohler, Volvo-Penta, and Doosan diesel engines
- Leroy Somer and Mecc Alte Alternators
- Kohler-SDMO digital controllers
- Schneider Electric breakers
- Super silent weather-proof steel enclosures
- Skid mounted and trailer mounted available
- 8 kW to 3,250 kW for standalone and paralleling applications

State-of-the-art factory

- 1,000,000 sq foot facilities
- Award winning R&D department
- ISO 17025 accredited laboratory
- ISO 14001 certified
- ISO 9001 certified
- 100% designed, engineered and manufactured in France

Comprehensive Range

- John Deere powered: 20 to 200 kW
- Kohler powered: 8 to 80 kW | 800 to 3,200 kW
- Volvo Penta powered: 250 to 600 kW
- Doosan powered: 300 to 750 kW

ASCO

Transfer Switches

ASCO

Brought to you by the power experts at Schneider Electric, ASCO Automatic Transfer Switches combine durability with compact design for enhanced generator performance in commercial and industrial applications.

As a trusted distributor for ASCO, General Power guarantees the largest inventory and selection of series 185 and series 300 transfer switches from 100 to 2,000 amp available in 2 poles and 3 poles, from 208V to 480V.

Industry-leading Inventory

- 200+ transfer switches in stock
- 100 amp to 2000 amp available
- 120 volts to 408 volts
- 2 pole and 3 pole options
- Nema 1 and Nema 3R configuration
- UL2200 and non-UL available

Stamford | AvK Alternators and Parts

STAMFORD® | AvK®

Through the application of innovative solutions to power generation, Stamford | AvK is a world leader.

General Power is the official authorized parts dealer for North and South America. We carry the largest inventory of spare parts in the nation along with the most competitive pricing in the market.

100% Genuine Stamford | AvK spare parts.

Our extensive on-hand inventory provides quick, easy, and expedited delivery to your location worldwide.

S, UCI, and HCI Range

- 50Hz and 60 Hz available
- Single and double bearing
- 7kW to 3800 kW (4 Poles)
- Single phase and three phase options
- 4 leads dedicated and 12 leads reconnectable
- 208 volts to 600 volts
- Shunt, PMG, and Auxilliary excitation
- Industrial and marine certified configurations

Leroy Somer Alternators and Parts

LERROYTM
SOMER

General Power is the official Leroy Somer parts distributor for the Americas. We carry the largest parts and alternator stock in the country.

We are the exclusive distributor in the Americas for the TAL line of alternators.

Additionally, as the exclusive distributor for Leroy Somer's TAL alternators, we offer you the largest selection of their highly price-competitive 6 to 1,000 kW product line.

LSA Range

- 10 kW to 3200 kW (4 poles)
- Single and three phase available
- 4 leads dedicated and 12 leads reconnectable
- 208 V to 600 V available
- 50 Hz and 60 Hz option
- Single and double bearing
- Shunt, PMG, and AREP Aux excitation
- Industrial and Marine certified configurations

TAL Range

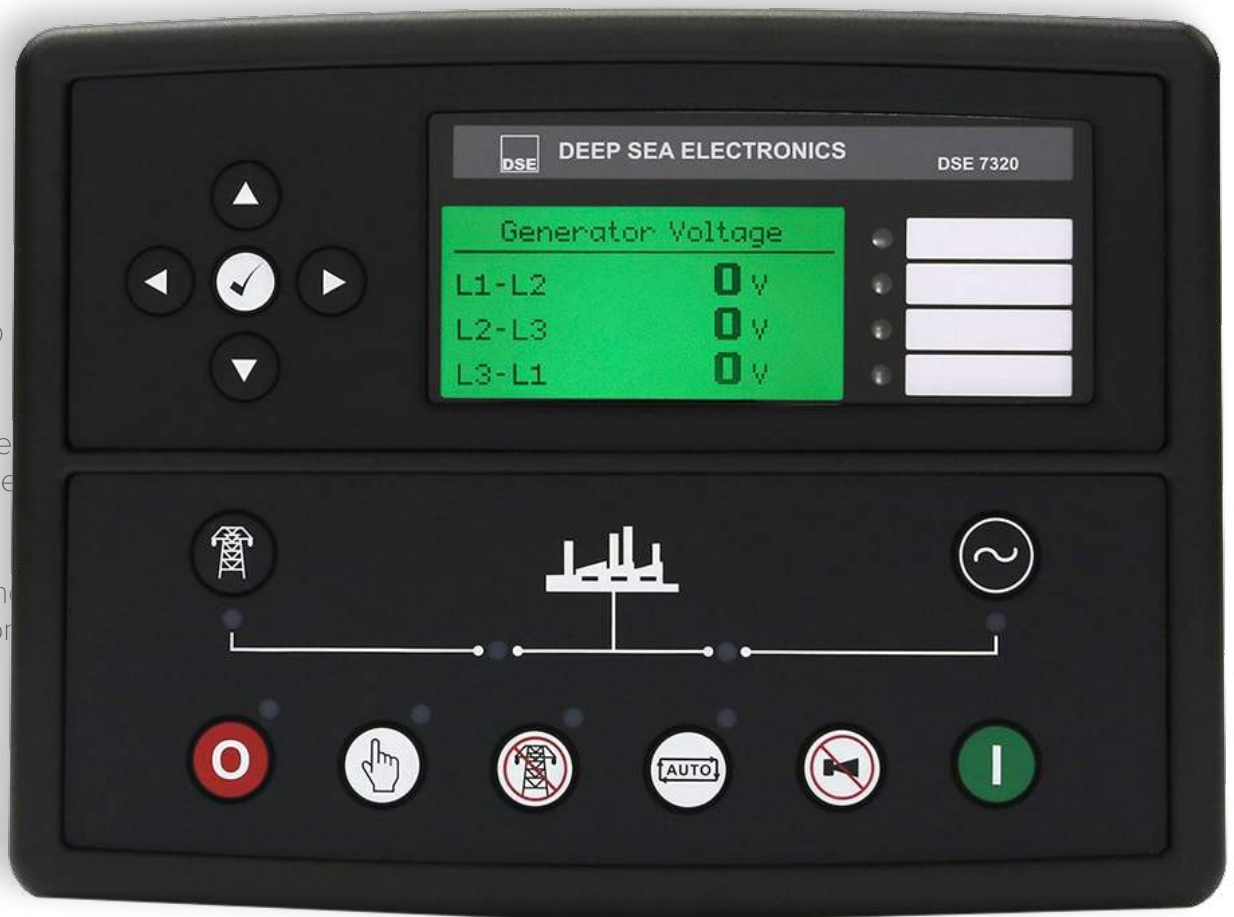

- 6 kW to 1060 kW (4 poles)
- Single and three phase available
- 4 leads dedicated and 12 leads reconnectable
- 208 V to 600 V available
- 50 Hz and 60 Hz option
- Single bearing
- Shunt, PMG, and AREP Aux excitation
- Industrial applications

Deep Sea Generator Controls

With over four decades of experience, Deep Sea Electronics is the leading designer and manufacturer of controllers for the power generation market. General Power guarantee that these products are 100% built in the United Kingdom.

At General Power, we carry the DSE 7000 and 8000 series controllers for various applications ranging from stand-alone to paralleling and automatic to manual startup.

7000 series

- Designed to control a single generator application
- Monitoring of mains (utility) supply
- 250 events log including date & time make fault finding effortless
- Easily configured using PC software
- Remote start, monitoring and control

8000 series

- Designed for load sharing and synchronizing applications
- Built-in governor and AVR control
- 12 configurable digital outputs
- Fully configurable via PC software
- 250 events log including date & time make fault finding effortless
- Remote start, monitoring and control
- Controls up to 32 generators

BECOME A DISTRIBUTOR

By being part of our distributors network, you will benefit from the recognition and the reputation of an established generator manufacturer, with proven experience in the industry. You will enjoy priority access to our world-class product line with full support from our company for sales, engineering, aftersales, training, marketing and financial functions.
